

essernet module, 62.5 kBd for IQ8Control

Part-No.: 784840.10

Network interface module for max. 16 network participants. Transmission via Token-Passing protocol, similar to DIN 19245-1 (Profibus) loop technology, interruption and short-circuit tolerance.

Quiescent current @ 12 V DC	approx. 150 mA
Cable length	1000 m
Cable	telecommunications cable I Y (St) Y n x 2 x 0.8 mm

The data connectivity can be fully redundant established. For this purpose, at least two DOMs and two SEI are required.
